This form is valid for a period of 60 days from date of issue.

Date:_

IRATA TERMS AND CONDITIONS OF ASSESSMENT

1. IRATA Policy and Procedure

Rope access candidates and certified IRATA rope access technicians agree to abide by IRATA International [Hereinafter referred to as IRATA] policy and procedures, including the Technician Codes of Ethics and the IRATA Training, Assessment and Certification Scheme, further information is available at www.irata.org. The IRATA logo is a registered trademark and may only be used by current IRATA member companies. Any misuse of the certification mark or logo will be addressed by IRATA and may be subject to legal action.

2. Supporting Evidence

Candidate identification and supplementary evidence must be provided to verify that the prerequisites have been met. The original documents must be available for inspection by the Assessor on the day of assessment. Identification shall include, name, address, date of birth and qualifying criteria e.g. IRATA logbook. Where the candidate relies upon work performed by an alternative rope access system (i.e. conversion) the original qualifying certificate shall be provided at assessment.

3. Confidentiality

The information supplied on this form may be used by third parties to verify whether you hold valid rope access certification and the scope of that certification. IRATA may use the information supplied to keep you informed about changes to the certification requirements or other matters directly related to rope access. IRATA will not use your information for third party marketing purposes.

4. Quality of Service

IRATA seeks to continuously improve upon and provide a high-quality service and as such, the performance of IRATA assessments will be monitored. IRATA reserves the right to observe a live assessment that you may partake in, however, candidates will not be subject to the outcomes of the audit. From time to time, IRATA may review and make changes to its certification or training scheme. Technicians are required to comply with such changes and provide confirmation as required. Certified persons will be notified of relevant changes through the contact details provided. The candidate is responsible for keeping IRATA updated with their current contact details.

5. Health and Fitness

Candidates should be physically fit and unaffected by any medical condition that may prevent them from undertaking their training requirements or performing manoeuvres required during assessment. Candidates are required to declare that they do not have any medical conditions or contra-indications that may prevent them from working safely. Upon certification, the holder is required to inform IRATA, without delay, of any matters that can affect the capability of the certified person to continue to fulfil the certification requirements, and immediately cease rope access activities.

6. Complaints and Appeals

The candidate is not required to agree with the outcome of the assessment. Candidates have the right to appeal certification decisions via the IRATA complaints process as detailed on www.irata.org. An appeal or complaint will not result in discriminatory actions against the appellant.

7. Certification Requirements

IRATA certification shall not be granted until all certification requirements are fulfilled. Undertaking the assessment is one part of the certification process. Successful completion of training or passing the assessment does not in itself guarantee that all certification requirements have been met. Certification will only be granted by IRATA upon verification that all pre-requisites and all relevant parts of the certification process have been successfully fulfilled. Recertification shall be a requirement in line with the IRATA Training, Assessment and Certification Scheme to ensure continued competence and ongoing compliance with current scheme requirements.

8. Certification Suspension or Withdrawal

IRATA retains the right to suspend or withdraw certification in line with current policy and procedure. IRATA certificates, ID cards and logbook remain the property of IRATA and shall be returned upon request if certification is suspended or withdrawn. All candidates and IRATA technicians are required to comply with an investigation related to a complaint, appeal or incident if requested to do so. Failure to respond or resolve issues, in the specified timeframe, may result in suspension or withdrawal of the certification. In the event of suspension or withdrawal of certification, the subject shall refrain from further promotion of the certification and desist use of all references to an IRATA certified status.

9. Non-Disclosure Agreement & Examination Practice

By participation in this assessment, candidates agree to abide by the examination rules and are committed not to release confidential examination materials or participate in fraudulent practices. Candidates may request an accommodation of special needs by contacting, in the first instance, their IRATA Trainer Member Company. IRATA will consider such requests on a case by case basis.

10. Notification

IRATA candidates or certified persons must inform IRATA, without delay, in cases of the following:

- · a change of address or contact details (contact number, email address);
- any medical condition that may affect their ability to perform their rope access duties to the required standard;
- any association (e.g. social, professional, an employer etc.) that they may have with the IRATA Assessor, as soon as they become aware of it.

11. Data Protection

Candidates acknowledge that:

- personal data will be collected upon application for IRATA certification and that personal data will be used by IRATA for the purpose of administering the
 certification scheme. Data will be entered onto a secure database accessible via a website by IRATA Member companies who may view a technician's contact details, history of
 assessments, identification details and photograph in order to renew, upgrade or verify IRATA certification;
- · candidate contact details will be used to provide relevant updates to IRATA policy, procedures or the certification scheme;
- personal data will be processed fairly and lawfully in adherence with UK data protection laws and that reasonable and appropriate measures are taken by IRATA to ensure that
 personal data is protected from unauthorised access or modification, unlawful destruction and improper use.

12. Candidate Signature

By signing overleaf, candidates agree, for the assessment and for the full term of their IRATA certification:

- to comply with the relevant provisions of the certification scheme (available at www.irata.org);
- to supply all personal information required for assessment;
- that all information and documentary evidence provided is true and correct to the best of their knowledge;
- that the information provided in the Candidate Disclaimer and Liability Release has been signed, is true and accurate and that if any declaration or warranty in such statement becomes untrue, will immediately inform IRATA;
- that they are not knowingly incapable of engaging in rope access activities, and that such activities would not be detrimental to their health, wellbeing or physical condition or to others who may be affected by their acts or omissions;
- not to use the certification in such a manner as to bring IRATA into disrepute, and not make any statement regarding the certification which IRATA considers misleading or unauthorised:
- to discontinue the use of IRATA certification, or make claims of having valid IRATA certification, upon suspension or withdrawal of that certification, and to return certificates, logbooks or ID cards issued by IRATA upon suspension or withdrawal;
- to abide by applicable IRATA policies, procedures and examination rules (available at www.irata.org);
- to be subject to the terms of the IRATA complaint and appeal procedure and to the IRATA standard penalties (available at www.irata.org);
- · that candidate personal data shall be used by IRATA in accordance with the provisions set out in Section 11. Data Protection (above).
